Answer: C

NEW QUESTION: 2

With a federated identity system, what does the identity provider send information to after a successful authentication?

- A. Service relay
- B. Service relay
- C. Service originator
- D. Relying party

Answer: D

Explanation:

Explanation/Reference:

Explanation:

Upon successful authentication, the identity provider sends an assertion with appropriate attributes to the relying party to grant access and assign appropriate roles to the user. The other terms provided are similar sounding to the correct term but are not actual components of a federated system.
