NEW QUESTION: 1

A company is creating a complex application with several Innovation Edge teams (using continuous delivery) and three Industrialized Core teams operating in an agile manner but with longer release cycles.

They recognize that their delivery model has multi-speed characteristics.

What is the main benefit of automated release for multi-speed IT environments?

A. It reduces the effort to manage the release of multiple interdependent applications.

B. It relieves release managers from the burden of using project plans.

- C. It reduces reliance on manual processes including scripting.
- D. It reduces compilation, build, and build verification test times.

Answer: D

NEW QUESTION: 2

Your organization has a complex retention schedule that clearly defines retention policies for all document types. Each department has its own SharePoint site. In many cases, a single document library on a department site may contain financial files, human resources files, and project documentation. The following table lists the retention policies that are in place.

You must administer retention rules from a single location for each type of document and must leverage out of the box functionality.

You need to configure the SharePoint environment to comply with the retention schedule.

What should you do?

- A. Configure information management policies on content types.
- B. Activate library and folder-based retention.
- C. Configure information management policies for the document libraries.
- D. Activate the In-Place Records Management feature.
- E. Activate the Disposition Approval feature.

Answer: A

NEW QUESTION: 3

Payment process request templates are created on the Templates tabbed page of the Payments Manager to simplify pay run processing. All statements in the list below represent steps to create a payment process request template. Which one is the first step?

- A. Specify invoice payment selection criteria.
- B. Specify how the system handles validation failure on the document and payment levels.
- C. Specify template header information.
- D. Specify payment attributes.
- E. Specify the degree of pay run automation.

Answer: C
