Without any doubt our SPLK-3001 actual test engine steadily keeps valid and accurate, Our Splunk certification SPLK-3001 exam question bank is produced by Lagunamarine's experts's continuously research of outline and previous exam.

**NEW QUESTION: 1**

Which of the following would be the best choice of a profit-sharing plan if the employer wishes to improve organizational productivity through shared management and employee efforts?

- A. Gainsharing
- B. Employee Stock Purchase Plan
- C. nuses
- D. Improshare

**Answer: A**

Explanation:

Answer option B is correct. A key component of a gainsharing plan is the shared responsibility of outcomes between management and employees. Productivity is reviewed, new performance is measured, and both work groups share in the gain. ESPPs, bonuses and improshare (D, A, C) all could be

used, but are not specifically grown around the concept of shared responsibility between management and employees.  
Chapter: Compensation and Benefits Objective: Review Questions

**NEW QUESTION: 2**

Scenario: A Citrix Engineer recently implemented a Provisioning Services environment, which includes a single Provisioning Services server with a locally attached Store. Management would like the engineer to expand the environment so that it can be used to support several critical use cases within the organization.

The following requirements exist for TFTP:

TFTP requests must be distributed among the available Provisioning Services in the environment.

TFTP requests must NOT be sent to Provisioning Services servers that are offline.

The engineer configured a Microsoft DHCP server to support the DHCP options boot method and will add a second Provisioning Services server to the environment soon.

Which action should the engineer take after the second Provisioning Services server is added to best meet these requirements?

- A. Add multiple option 66 entries to the Microsoft DHCP server.
- B. Implement DNS-based round-robin load balancing with an A record that includes both Provisioning Services servers.
- C. Use a NetScaler appliance to implement server load balancing of the TFTP service.
- D. Add the new Provisioning Services server name to the bootstrap file.

**Answer: C**

**NEW QUESTION: 3**

Which three are benefits of a Cisco Borderless Network that go beyond TCO calculation? (Choose three.)

- A. high availability
- B. cost per port
- C. integrated services
- D. lowest power consumption
- E. enhanced security

**Answer: A,C,E**
